

JoyZ Westerkappeln

The youth centre offers a wide range of projects for children and young adolescents.

Activities like playing billiard, cooking or „kickern“ (you will get to know what this means when you are there) such as projects with sports, media, handcrafts or music are offered to the children. Furthermore, the children and youth can get advice and support from the team concerning their everyday life problems. The pedagogical team supports the children in their personal education and socialisation. In the holidays and on weekends the youth center offers activities and organises trips to different interesting destinations.

Your tasks as an European volunteer

At the youth centre you can participate in different projects and develop your own activities.

Cooperation, communication and relationship work is one of your main tasks. While playing games, talking and supporting the children you can get access to them. You will work basically in the afternoon.
